

Accreditation and Certification

Ensuring compliance to national and international standards

ISO/IEC-17025: 2005 Accredited

ITAR registered

MIL-STD-790 approved by the Defense Logistic Agency (DLA) Land and Maritime

Member of the Verizon FOC ITL Certification Program

JPL Approved Test Lab

UL Approval under DAP Program

ATF Licensed

Experior Laboratories is a committed partner with proven success in testing and qualification services. Experior Labs combines global experience, local market expertise, extensive industry knowledge, world-class competence and maintains industry certifications and third-party approvals required to serve tier-one manufacturers' testing and qualification needs.

ISO/IEC-17025:2005 Accredited: ISO accreditation is the product of a long-standing commitment to quality and demonstrates that Experior Labs meets the stringent requirements of international quality standards for testing of our customers' products.

MIL-STD-790 Approved by the Defense Logistic Agency (DLA) Land and Maritime: The approval covers a broad array of test methods ranging from optical and electrical measurements to environmental and mechanical tests to various material tests. Experior Labs is approved for qualification testing of optical fiber and cables, optical termini, electrical contacts, optical and electrical connectors, and many more environmental and mechanical test methods.

Verizon Approved under the Fiber Optic Component (FOC) Independent Test Laboratory (ITL) Certification Program: This stringent certification program ensures Experior Labs' suitability for testing fiber optic components, including single and multi-fiber connectors, fibers and cables, as well as splitters/couplers, and fiber optic closures. Experior Labs is also approved for on-site witnessing at manufacturers in-house test facilities.

JPL Approved: Experior Labs has been rated Approved in JPL's Approved Supplier List (ASL). The scope of approval is for mechanical, environmental, electrical and optical testing.

UL Approved: Experior Labs is a member of the UL Data Acceptance Program (DAP) which provides means for UL to accept Experior Labs' test data in support of UL certifications with specific scope for testing fiber optic components to numerous national and international standards.

ATF Licensed: ATF License Type IV (DOT Division 1.4) Igniters and other explosive devices.

Experior Laboratories is an experienced testing and qualification laboratory with proven success in the Telecommunication, Military and Aerospace, and Space industries. Internal capabilities range from climatic (temperature/humidity, thermal shock, thermal aging) to mechanical (vibration, tensile / flex / twist, shock, impact), to material tests (corrosion / salt fog, fluid immersion, flammability, rockwell hardness, etc).

Experior Laboratories....helping customers ensure the reliability of their products and reduce the overall time-to-market.
