

Experior Laboratories Overview

Independently recognized for strict compliance to national and international standards

Experior Laboratories, Inc is a Southern California based, third-party test laboratory providing independent design verification and qualification testing services to component and system manufacturers, military contractors, integrators and system providers within the Telecommunication, Military, Aerospace, Space, Industrial, Medical and many other industries.

Recognized throughout the industry for superior customer service, consistent on-time delivery, project management by experts and end-to-end accountability, Experior Labs offers customers cost-effective, highly qualified testing services that add value to any organization, regardless of size.

Experior Labs was founded in 2003 and is privately held. A unique business model and substantial private investment has allowed Experior Labs to become one of the fastest growing independent test laboratories in North America. Headquartered in Oxnard, CA, Experior Labs occupies 42,000 sq ft. in three buildings.

Experior Labs maintains the overall accreditation, specific industry certifications and third-party approvals required to serve key manufacturers, including:

							
ISO/IEC-17025: 2005 Accredited	PJLA	ITAR registered	MIL-STD-790 approved by the Defense Logistic Agency (DLA) Land and Maritime	Member of the Verizon FOC ITL Certification Program	JPL Approved Test Lab Jet Propulsion Laboratory California Institute of Technology	UL APPROVED	ATF Licensed

Experior Laboratories....helping customers ensure the reliability of their products and reduce the overall time-to-market.
